Something old. Something new.

Relights are an exciting new product category in the lighting industry. First introduced by Stonegate Designs, patent pending Relights clip-on quickly and easily to any brand of existing recessed and can lighting fixtures, but add the element of fashion-forward design.

Classique Series Relights mimic the appearance of a Flush Mount Pendant. Available in a variety of sizes, inspirational colors and textures, Relights are offered in Stonegate's luxurious fabrics, laser-cut metals, and premium-grade woods. Design professionals will love the remarkable flexibility and extra design opportunities Relights by Stonegate Designs offers.

Stonegate Designs' creative lighting adds art and interest to every space.

Classique Series Relights
